Our creatives balance uncompromising attention to detail with passionate, instinctive creativity, whether it's sourcing the best of British craftsmanship, or curating furniture and finishes that feel uniquely you — we are passionate about delivering beyond our client's expectations.

When it comes to delivery, our years of experience in handling projects, from the wildly bespoke to those at epic scale means we've got every aspect of the project covered, so you can relax and enjoy the ride.

Milc's personal approach to interior design enables us to capture what's unique about each and every client, and create stylish interiors that stand-out from the crowd. Our deep knowledge of functionality and flow, ensure we create a space that works for you, and adds value to your property.

KITCHEN & BATHROOM

Kitchens and Bathrooms are the most complex, and to many, the most important parts of any interior space. Our design teams work closely with some of the UK's most exacting craftsmen to deliver stunning statement rooms — rooms that will not only capture your individuality — but are intelligently designed to fit perfectly with your lifestyle, from clutter free elegance, to that intuitively placed bottle opener — we make spaces you'll love to live in.

WINDOW DRESSINGS

Made-to-measure window dressings can transform a space, adding warmth and style whilst enhancing light. From exquisite blackout curtains to delicate voiles — our team will create beautiful crafted window treatments that will truly enhance your interior but also complement the architecture of your building.

BESPOKE CABINETRY

At Milc we can create unique pieces of furniture for any space in your home from custom bookcases and storage solutions to beds, ottomans and many other innovative combinations of furniture to help you get the very best use of your space. Whatever piece of bespoke fitted or stand alone furniture you may need, we can make it to the design and high quality finish of your choice.

AUDIO VISUAL

Seamlessly connected audio visual installations are a must in today's connected world. Our designers will ensure you have everything you need, whether it's discreet yet powerful integrated speaker systems, invisible voice assistants or a full-blown cinema.

ART

Whether it's sourcing something from your favourite artist, or arranging a bespoke commission, we know that placing the right artwork in your space is key to capturing your individuality and personality. We're here to source the perfect pieces for your new space, from tactile sculptures to sublime abstract paintings, bold photography to sensitive drawings, our designers will work with you to find those artworks that make your space truly yours, all beautifully framed and hung by our expert art consultants.

DEVELOPER SERVICES

As well as bespoke interior design projects, our design team can also provide services to the UK's leading property developers and agents to get their properties sold fast, maximising returns and minimizing voids.

If you would like to know more about our developer services, please reach out to our sales team, info@milcstyle.co.uk

HOME STAGING

The home staging service at Milc provides stylish interiors for developers, investors, estate agents and private clients.

This service is particularly suitable for clients who don't want unnecessary capital outlay and residual ownership. Milc works hard to ensure properties are primed to sell fast, at optimum value by evoking an aspirational lifestyle and highlighting the key selling points of each individual property.

SHOW HOMES

Show homes and view units must demand attention; to spark the interest of potential purchasers and turn that interest into the desire to purchase.

Working alongside some of the most renowned developers, we regularly create unique show homes that offer something different, making viewings an experience – with tactile surfaces and carefully curated focal points emphasising the key design features unique to the development.

REFURBISHMENT

Whether you're looking for a simple refresh or a complete revamp, our experienced team of designers will be right by your side, from initial consultation through to the final fit out, to create the perfect look for you.

FURNITURE COLLECTIONS

Milc's turn-key collections have been created and curated with developers and tenants, in mind. Working closely with property agents to understand the current trends in the lettings, sales and relocation markets, Milc's specialist insight ensures you achieve the highest possible return on your investment.

MODERN

Our Modern collection features Scandinavian influences to create a bright and airy design throughout. Light oak and walnut finishes ground each space and pops of colour give a contemporary edge.

INDUSTRIAL

Our industrial Collection has a monochromatic palette with rich textures such as leather and sumptuous velvets, each space is finished with mixed metals whilst bedrooms feature contemporary lighting.

LUXE

Our Luxe Collection is our most elegant with brass finishes and rich velvets throughout. Furniture has a classic contemporary style throughout as well as a variety of light and dark case goods.
